# 1. Uvod

## 1.1 Korišćeni programski jezici i tehnologije

Za potrebe sajta korišćene su sledeće tehnologije

- HTML 5
- CSS 3/SASS
- Bootstrap
- Adobe Photoshop
- jQuery
- JavaScript
- XML(sitemap)
- PHP
- JavaScript
- Xampp
- MySQL

## 1.2 Opis funkcionalnosti

Sadržaj svih stranica na sajtu je dinamički ispisan na osnovu podataka učitanih iz baze, izuzev stranica login.php i registration.php. Funkcionalnosti sajta su:

- Dinamičko učitavanje navigacije iz baze, kao i poseban odjeljak za ulogovane korisnike koji je različit u zavisnosti od uloga ulogovanog korisnika
- Slajder sa slikama koje su dinamički učitane iz baze
- Dinamičko učitavanje najnovijih, najpopularnijih i svih vijesti učitanih iz baze
- Učitavanje zasebnih PHP fajlova – sav sadržaj koji se ponavlja na svakoj stranici je smješten u posebne PHP fajlove, nav, footer, sidebar...
- Logovanje i registracija korisnika, prilikom registracije i logovanje vrši se i klijentska i serverska provjera podataka regularnim izrazima, svaka stranica za korisnike/administratore zaštićena je od neovlašćenog pristupa preko url adrese
- Učitavanje komentara u realnom vremenu, svi postovani komentari se učitavaju u realnom vremenu bez potrebe za osvježavanjem stranice
- Filtriranje, sortiranje i paginacija vijesti, sva filtriranja i sortiranja su uparena
- Kontakt forma, svako može poslati svoju poruku, ukoliko je korisnik ulogovan polje za ime i email su automatski popunjeni
- User panel – panel namijenjen autorizovanim korisnicima sa ulogom korisnika, korisnici mogu dodavati komentare, odgovarati na komentare, mogu vidjeti svoj profil, promijeniti ili obrisati svoju profilnu sliku, promijeniti svoju lozinku, popuniti anketu

- Admin panel – panel namijenjen autorizovanim korisnicima sa ulogom administratora, pored ostalih uloga kao i obični korisnici administrator ima i druge mogućnosti kao što su: pregled svih korisnika sa mogućnošću da im promijeni uloge i deaktivira ili aktivira nalog, dodavanje i brisanje vijesti, brisanje komentara, pregled poruka, pregled rezultata ankete

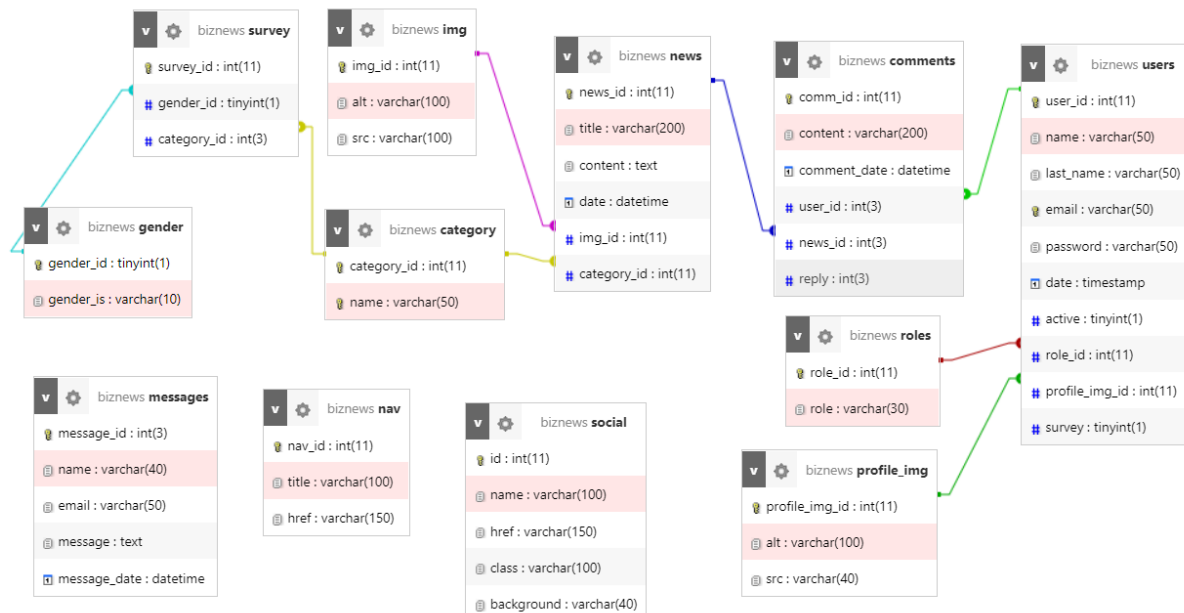

### 1.3 Template

Za izradu sajta korišćeno je gotovo rješenje – CSS template, preuzeto sa <https://technext.github.io/biznews/index.html>, uz modifikaciju CSS-a, JavaScript-a i PHP-a od strane autora. JavaScript kod autora nalazi se u fajlu js/main2.js.

## 2. Organizacija

### 2.1 Organizaciona šema baze podataka

Gotovo svakoj stranici je se može pristupiti sa bilo koje stranice izuzev stranice single-new.php kojoj je moguće pristupiti samo klikom na neku vijest.

## 2.2 Mapa sajta

## 2.3 Organizacija sajta i funkcionalnosti na tim djelovima

### 2.3.1 index.php

Nav meni dinamički se učitava iz baze. Ukoliko je korisnik ulogovan u gornjem desnom uglu će mu se profilna slika sa odjeljkom za opcije.

Slajder sa najnovijim vijestima prikazuje najnovije vijesti, svi podaci vezani za najnovije vijesti su dinamički učitan iz baze.

Please enter your name ex. David

Last name

Please enter your last name ex. James

Email

Please enter your email ex. email@gmail.com

Password

Password length has to be at least 6, and it has to have at least one number and no special characters

Confirm Password

Password do not match

Register

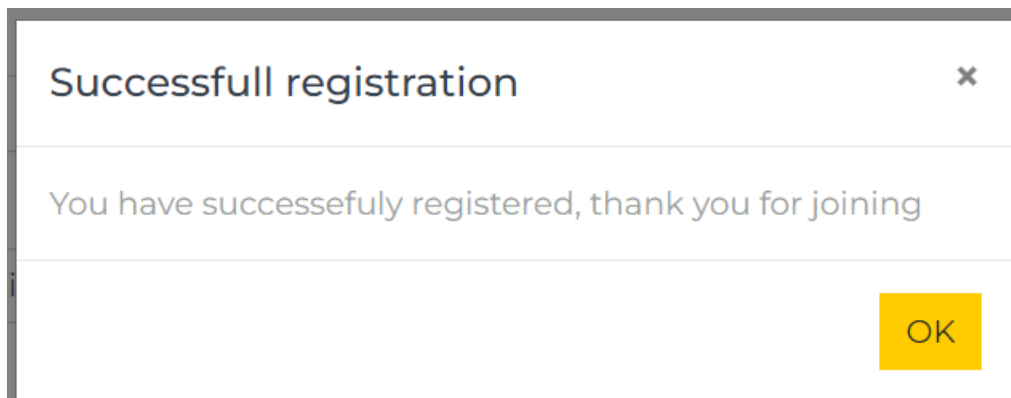

Klikom na dugme za registraciju vrši se klijentska provjera podataka. Ukoliko podaci nisu pravilno ispunjeni korisniku će biti prikazane poruke sa uputstvima za pravilno popunjavanje. Ukoliko je forma pravilno popunjena, podaci se šalju puta AJAX-a nakon čega se vrši serverska provjera.

Email

This email is already in use, please enter another email

Password

Svaki korisnik ima jedinstven email, što se provjerava na serverskoj strani, ukoliko korisnik unese email koji je već u upotrebi biće obaviješten adekvatnom porukom.

Ukoliko je forma prošla klijentske i serverske provjere korisnik će biti obaviješten adekvatnom porukom.

**Admin** Owner of InfinityFree

1  Mar '20

The most common way to send email from your website is by using the PHP `mail()` function. PHP `mail()` is an easy to use email system built into the PHP programming language. It's the default setting for almost all applications.

However, **PHP mail is severely restricted** on InfinityFree. To prevent spam and other abuse, most messages sent through PHP mail are rejected by the mail system. In practice, this means **you cannot use PHP mail on InfinityFree** to send your email.

Sama registracija je zamišljena da se obavlja slanjem aktivacionog linka putem mejla što je moguće u "lokalu", međutim prilikom hostovanja autor je naišao na problem. linfinityFree ne dozvoljava slanje mejlova ukoliko se koristi free hosting, s toga je autor bio primoran da odustane od registracije prilikom mejla. Kod za registraciju putem mejla nalazi se u fajlu `models/registration2.php`, dok se kod za običnu registraciju nalazi u fajlu `models/registration.php`

### 2.3.7 login.php

## LOGIN

Email

Password

Login

Stranica za logovanje sadrži formu za unos podataka. Podaci iz forme se šalju putem AJAX-a, prije slanja se vrši klijentska a nakon slanja serverska validacija.

Email

Please enter your email ex. email@gmail.com

Password

Password length has to be at least 6, and it has to have at least one number and no special characters

Klikom na dugme login vrši se klijentska provjera podataka prije slanja. Ukoliko su podaci tačni prosleđuju se dalje.

Email

User with this email, doesn't exist

Email

This account is temporarily banned

Password

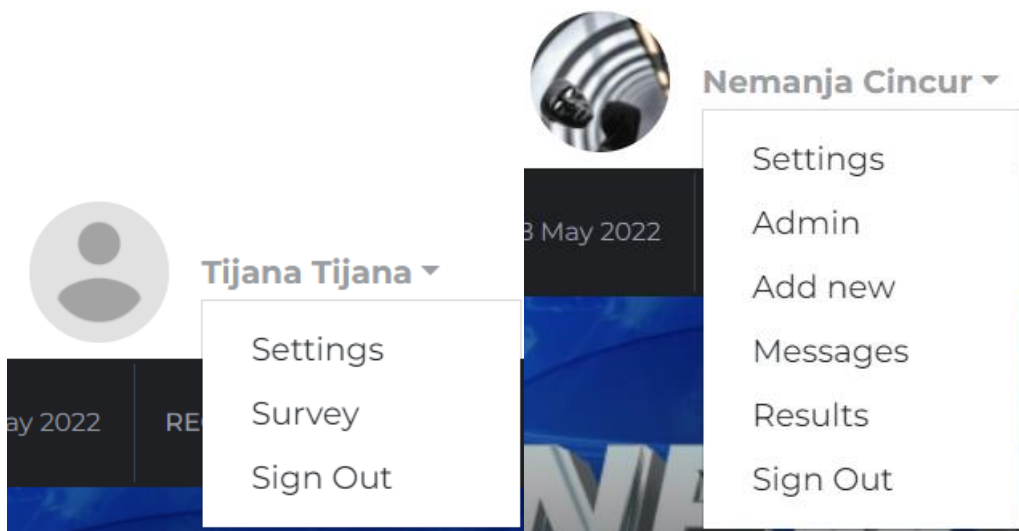

Incorrect password

Sa serverske strane se pored provjere ispravnosti podataka regularnim izrazima vrši i ostale provjere kao što su da li korisnik sa datim emailom uopšte postoji, da li je lozinka tačna i da li je korisnikov nalog aktivan. Prilikom upisa u bazu šifra korisnika se kriptuje md5 funkcijom.

Login

Welcome Nemanja

Ukoliko su svi podaci ispravni korisniku će biti prikazana poruka dobrodošlice i biće redirektovan na index stranicu.

Nakon logovanja korisniku će se u donjem lijevom uglu prikazati profila slika sa padajućom listom za opcije. U zavisnosti od uloge korisnika razlikuju se i opcije. Tako možemo vidjeti opcije za običnog korisnika lijevo i opcije za administratora desno.
